Introduction

AGR Networks Ltd (AGRN) is an Independent Distribution Network Operator (IDNO), licensed to design, build, adopt, operate and maintain electricity distribution networks in Great Britain.

This statement sets out the basis upon which charges will be made for the provision of metering point administration services (MPAS) to enable a supplier to make a reasonable estimate of charges it would be liable to pay for the provision of such services.

An applicant applying for the use of AGRN's MPAS, must be a licensed Electricity Supplier and a signatory to both the Retail Energy Code (REC), the Balancing and Settlement Code (BSC) and the Distribution Connection Use of System Agreement (DCUSA).

It is prepared in accordance with the requirements of AGRN's electricity distribution license issued under the Electricity Act 1989 (as amended by the Utilities Act 2000), Standard Licence Condition 18.

All charges in this statement are shown exclusive of VAT. Invoices will include VAT at the applicable rate.

To request any of the services described in this statement, please contact us:

- Email: agrn_support@eptech.co.uk
- Post: AGR Networks, 3rd Floor Chancery House, St Nicholas Way, Sutton, Surrey, England, SM1 1JB
- Phone: 0208 0580752

1. MPAS Charges

The normal operating costs of providing a metering point administration service (MPAS) are included with AGRN distribution use of system charges (DUoS). If an electricity Supplier should request additional services, then a transaction charge will be levied. A table of these charges are provided below.

Activity	Charge per event
Provision of a Contact Notice (manual or electronic)	£15
Manual Database Amendment (previously known as a MAP04) <ul style="list-style-type: none">Manual amendments of the MPAS database to correct retrospective errors requires careful handling to ensure new errors are not introduced. The charges for this activity will depend on the number of data items to be changed and the number of parties whose agreement to the proposed change may be required.	By individual agreement
Full Refresh	£475
Selective Refresh	£15
Data Resend (when the original data transmission has been acknowledged at the intended recipient's gateway).	£25
Rejections	£10
Report to Settlement System Administrator, Elexon Parties and/or MPAS investigations	£25
Report to Data Aggregator (detailing last file sequence number)	£25

Note: Manual amendments of the MPAS database to correct retrospective errors made by Suppliers or their agents requires careful handling to ensure new errors are not introduced. The charges for this activity will depend on the number of data items to be changed and the number of parties whose agreement to the proposed change may be required
